

**Physician Benefactor Member:**

On behalf of the Jacksonville Sports Medicine Program (JSMP), thank you for your participation and confidence in our community-based programming and events. Through your dedication and support of our program we have become recognized as Florida’s leading resource for leadership, advocacy and education for the prevention and awareness of youth sports-related injury.

As we begin 2016, I wish to personally invite you to discover all the benefits of our program and encourage you to become a “**Physician Benefactor**” by making a tax deductible financial gift to the *Jacksonville Sports Medicine Program*, a non-profit agency supporting kids in our community. As a Physician Benefactor you will be the first to be included in the exciting benefits we are currently finalizing.

These include:

- A JSMP mobile phone app that will highlight our physician supporters
- A new JSMP website with features for our supporting physicians, Parents and Coaches
- Sports safety award luncheon invite honoring special VIP guests
- A member only section of the JSMP website
- Access to baseline concussion testing and post injury test results through our registered schools
- Admittance to sports medicine lecture series, evidence-based programs and much more

As an IRS 501 C(3) charitable organization, financial contributions to our program qualify for certain tax benefits. Be sure to include information about your contribution when speaking with your personal tax advisor to take advantage of these benefits.

Membership categories are listed below:

Physician/clinical – Category	Membership fee
Orthopedic Surgeon	\$375
Sports Medicine MD/DO	\$325
Family Medicine/Pediatrician	\$275
PA/NP/PhD Clinical Provider	\$225

Invoice/application linked here: [Become a member today](#)

Your contribution will help support the efforts we are taking to make sports a safer experience for our youth athletes. We look forward to you becoming a **physician benefactor**.

Thank you in advance for your support.

Yours in sports health,

Robert Sefcik, ATC, LAT  
Executive Director
